## Join us for a summer of adventure!

Join us for a summer of adventure, as we traverse new worlds and tackle challenges. Entertain a troupe of monkeys, design and test structures, create delicious dishes, explore science, hunt for treasure, dodge natural disasters, and so much more as you work to defeat the game. Campers will maneuver the 10 levels through invention, discovery, construction, creativity, and team work. Game on campers!

Register now for a summer of learning, creating, and fun!

# 1 WEEK 1 GAME ON!

Welcome to the game!  
Before you can move on to face the challenges heading your way, you must develop a knowledge base of how games function. Let's explore popular games, reinvent favorites, examine characters, and create our own games to build the necessary skills to defeat the game.

# 2 WEEK 2 THE STATE OF STABILITY

As you navigate the State of Stability your team stumbles across a ravine. It is up to you to design and build a bridge stable enough to get your team to safety. Campers will investigate characteristics of different types of structures, create blueprints, test materials, and construct bridges.

# 3 WEEK 3 CULINARY COMMONWEALTH

The Commonwealth's cook has quit and the hungry inhabitants have barricaded the boundaries. In order to move through this level, you must hone your culinary skills and cook a dinner tasty enough to convince the town's people to remove the barricades. We will explore cooking around the world, expand our palette, and try our hands at creating delicious dishes.

# 4 WEEK 4 THE MARVELOUS REALM OF MAGNETS

Have you ever wondered "It's magnetic, but why?" That curiosity will serve you well in level 4 where your knowledge of magnetic properties is the only way to make your way through this gravity free world. Campers will explore magnets, create magnet mazes, and use magnet powered cars to discover an escape route.

# 5 WEEK 5 DISTRICT OF DISASTER

You have arrived in the District of Disaster where the weather changes by the minute. To survive this level and move on to the next you must gain the knowledge and skills to withstand the natural disasters this world throws your way.

# 6 WEEK 6 THE EMPIRE OF ENTERTAINMENT

Welcome to the Empire of Entertainment where exploring performing arts is the key to unlocking your creativity. As you stumble through this unfamiliar world your team crosses paths with a troupe of monkeys. The only way to pass is to entertain the troupe. Campers will write scripts, design props, and build backdrops as we create our own show. Are you ready? And Action!

# 7 WEEK 7: DINO QUARRY

The paleontologists of Dino Quarry need your help to discover the final pieces to their newest find. We will create dinosaur bones, dig for fossils, make dinosaur sculptures, and test your dinosaur naming skills. It's up to you to find the lost bones of the dinosaur colony. Are you up the task?

# 8 WEEK 8: THE INLET OF INNOVATION

Resources are limited on the north side of the Inlet of Innovation. The villagers need your help to move food, clothes, and building supplies as quickly as possible. Your challenge is to create a device or tool to quickly and safely move materials and resources from one side of the inlet to the other. Let's investigate famous inventors, explore ways to move commodities, make loose part creations, and so much more!

# 9 WEEK 9: WATER WORLD

Welcome to Water World where the water levels are becoming dangerously high. In order to master this level, you must disperse the rising tides to reinstate safe conditions. Campers will examine the movement of water, experiment with water in different forms, and compete in the obstacle course of a lifetime. Will you rise or sink to the challenge?

# 10 WEEK 10: TREASURE HUNT TERRITORY

The only thing standing in the way of defeating the game is a series of activities designed to test cognitive strength. Campers must harness their brain power to unravel the true meaning of secret messages, solve riddles, hunt for clues, and crack codes to find the final piece to the puzzle and escape the game.
